Value-Driven Water Treatment Solutions

At Water Tech, we provide advanced, value-driven products, equipment, chemicals, and technical services engineered to solve complex water challenges. Backed by decades of experience, our solutions deliver cleaner, safer water, improve efficiency, promote recycling and reuse, reduce costs, and support a healthier environment.

**Based in the Caribbean,
Serving Clients Worldwide**

**NSF Certified Products
for Your Peace of Mind**

Water Tech Sales & Consulting, Inc.

**Advanced Products
Reliable Equipment
Expert Support**

**Your Partner for Value-Driven
Water Treatment Solutions**

**CLEANER WATER
LOWER COSTS
LASTING RESULTS**

Membranes — BWRO, SWRO, NF, UF

- Advanced NanoH2O, Toray, FilmTec models
- Thin-film nanocomposite technology
- Increase flow and improve water quality
- Reduce fouling and save energy

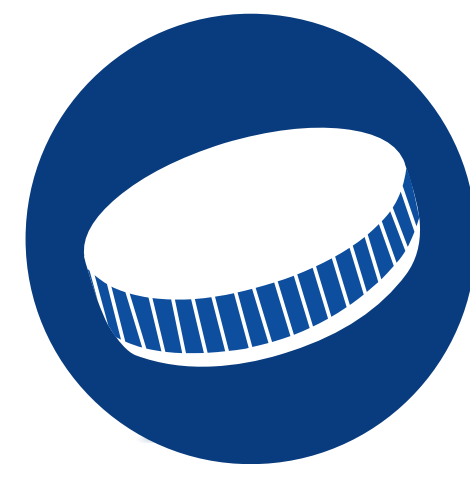

Membrane Antiscalants and Cleaners

- Prevent scale, fouling and biofouling
- Improve system performance
- Extend membrane life
- Advanced chemical formulations

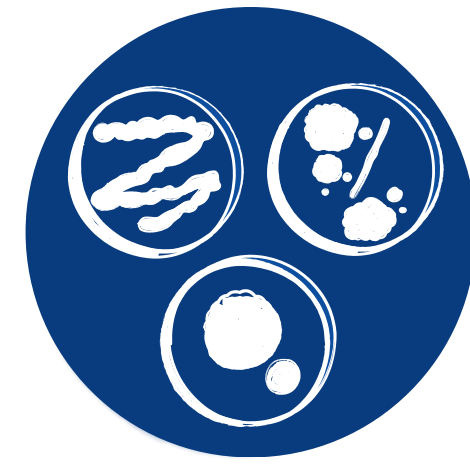

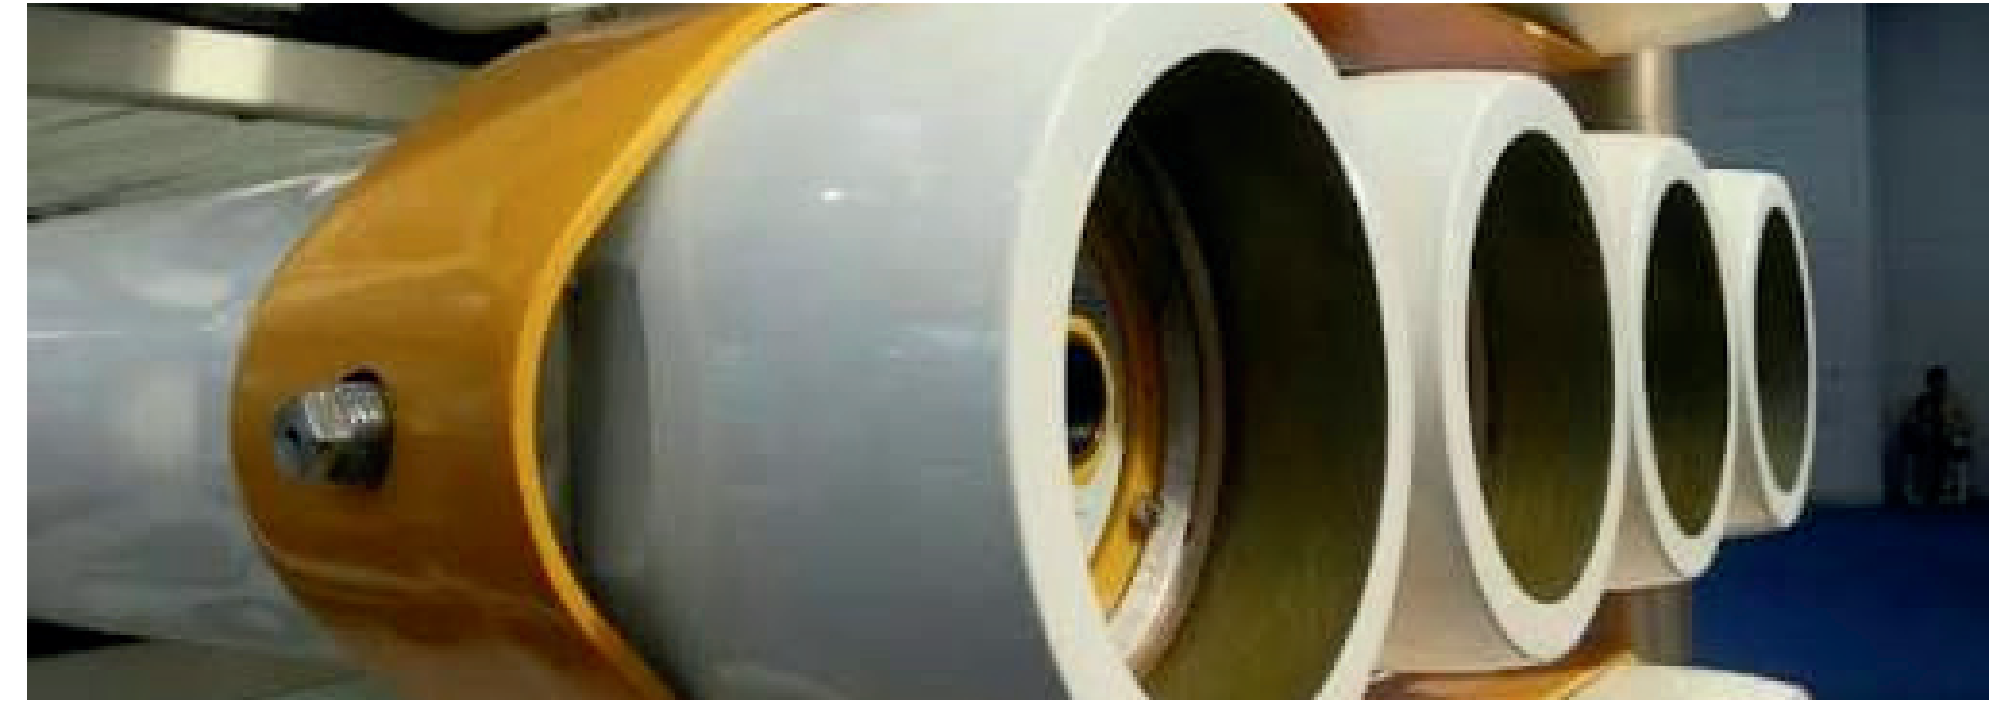

Water Treatment Equipment and Systems

- Reverse Osmosis (RO)
- Ultrafiltration (UF)
- Clean in Place (CIP)
- Softeners and multi-media/carbon filters
- Ultraviolet (UV), EDI and more

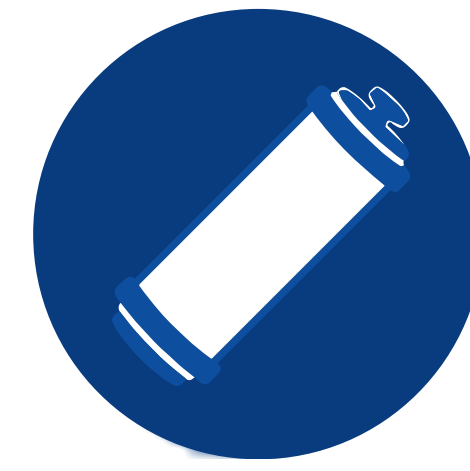

Pressure Vessels and Parts — RO, UF, More

- RO pressure vessels
- UF modules
- End caps, housings and components
- O-rings, adapters and more

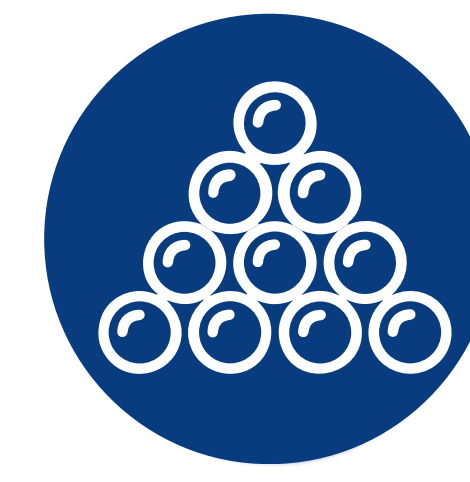

Membrane Diagnostic Services

- Membrane autopsies & foulant analysis
- Cleaning & performance studies
- Scale prevention software
- Data normalization

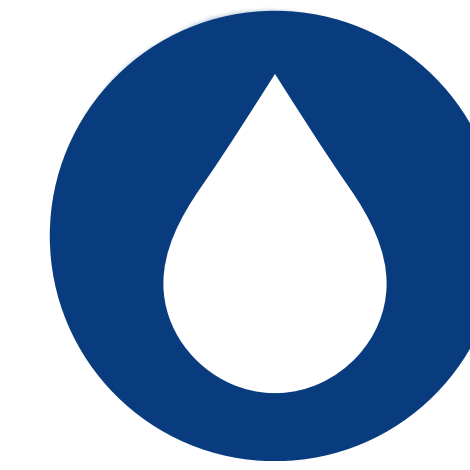

Filter Cartridges and Housings

- All sizes and micron ratings
- Melt blown, string-wound, and pleated
- All end-cap configurations
- Filter cartridge housings

Filter Media and Ion Exchange Resins

- Multi-media
- Activated carbon
- Filox media - Fe and Mn Removal
- Ion-exchange resins
- Calcite and more

Potable and Wastewater Chemicals

- Coagulants & flocculants
- pH control & disinfection
- Bacteria, wastewater, odor and grease control
- Sodium metabisulfite and more

Cooling Tower and Boiler Treatment

- Scale and corrosion inhibitors
- Microbiological control
- Reduce energy and water usage
- Reduce downtime
- Dry-solid treatment options
